SUSTAINABILITY

FINSA is committed to sustainable growth, which extends over the limits of our factories. We obtain our main raw material, timber, from nature and it is our duty to respect and protect it.

From preserving our forests to creating this robust melamine range, we've taken care to ensure we're delivering this range in a sustainable way to you. We're committed to doing more and have a stringent plan in place to continue this work.

We're working with industry partners to make sure we hit key milestones on our journey. From Cradle 2 Cradle certification to FSC, we're on track to make FINSA materials as sustainable as possible.
